# SCHOLAR CHIP®

Forever Free Visitor Manager

School safety can't wait. We believe every school needs better security. ScholarChip's **Forever Free** version of Visitor Management is now available to all K-12 schools, regardless of budget or resources. The Forever Free version includes two critical components of the ScholarChip Visitor Management system: the ability to register and check in visitors, and the capacity to check visitors against a comprehensive database of sex offenders.

Security Services

Visitor Management, a Component of the ScholarChip Cloud, is an Integrated School Safety and School Operation Service.
