

ScholarChip, the largest issuer of smart cards in the K12 market, has partnered with SchoolPay, an advanced payment solutions company. This partnership brings with it an unparalleled Point-of-Sale system, featuring an easy-to-use touch screen interface, that seamlessly pairs with a complete payment system built specifically for schools. Schools are provided with a best-in-class system while providing the highest levels of data security.

Financial Transactions

Point-of-Sale is a Component of the ScholarChip Cloud and an Integrated School Safety and School Operation Service.

ScholarChip® Cafeteria Point-of-Sale with SchoolPay® Payment Solution

Our approach to cafeteria management is simple: unify Point-of-Sale, Free and Reduced Application Processing and automated student attendance services to create a cohesive safety and operations system for your school

ScholarChip's POS platform seamlessly integrates with SchoolPay's Payment Gateway to load/re-load pre-paid cafeteria balances, update account transactions to SchoolPay's Payment Portal, and set balance alerts for low balances and other issues.

Our POS system has the ability to track student names, IDs, school location, GL# and unique settlement account on every item purchased.

Extensive reporting for students also allows the system to identify important conditions like allergies, at the terminal, to help to eliminate potential problems.

6 Commercial Street, Hicksville, NY 11801
